

ODYSSEY DATA SYSTEMS, INC.

WHITE PLAINS, NY 10605

(914) 948-6668

IBM i and Windows PC Consultants

INTRODUCTION:

Odyssey Data Systems, Inc. was established in 1975 and incorporated in the State of New York. Its founder and President, Robert M. Presser, has more than thirty years experience in many areas of Information Technology. The company has grown from a one-man operation to become a successful and reputable organization with highly skilled technical professionals.

It currently serves as Information Technology consultants to clients who are users of IBM midrange and micro computers; namely the IBM i, iSeries, AS/400s, PCs and PC networks.

SERVICES:

Odyssey's strengths lie in the quality, training and expertise of its staff. Its managers, systems analysts, programmers and support personnel have many years experience in serving clients in a variety of industries with varied applications. Odyssey representatives strive to communicate clearly, produce exceptional design and code, and satisfy the exacting needs of all its clients, regardless of size. The following lists some of the services Odyssey Data Systems can provide its clients:

- Problem analysis and resolution
- Feasibility studies
- Project management
